

Dear Friend,

Thanks for downloading this PDF of paid traffic sources. There are literally billions of banner impressions available to buy EACH day and it's quite possible to have hundreds of thousands of visitors coming to your web properties each day. I firmly believe that to achieve mass amounts of traffic, paid traffic is the best route.

Why? Because unlike SEO or other free traffic sources, paid traffic is:

1. Controllable

2. Predictable

3. Consistent

4. Scalable.

5. Targeted

In this guide are paid traffic sources that you can start buying traffic from almost immediately. Starting testing different sources and you will eventually find one that sends converting traffic for your products, services and affiliate offers.

If you are interested in learning more about paid traffic and how to convert it into mass profits, take a few minutes to check out my inner circle at <http://www.imstealth.com>

Best wishes,

Gauher Chaudhry <http://www.gauherchaudhry.com>
